How to be in love and making love

Discover the 5 keys to sexual happiness

From: **Suzie Johnson**
CEO, Johnson Partners Research
Friday, March 7, 2003 - 9:43 a.m.

Dear Friend,

Almost 3 years ago now, I set out to find a way to get turned on for sex more easily and quickly WITHOUT having to depend on drugs or doctors.

Since I was born with an innate ability to research, along with a photographic memory, I (along with a team of researchers) poured through decades of data related to female sexuality.

We read thousands of books, watched dozens of instructional videos and hit libraries in every town we visited. We did anything and went anywhere to find any information we thought might help.

As you may know, the end result of all this research (and the real intention from the beginning) was an incredible sexual arousal tool...which I'll talk more about in a minute.

This remarkable product is being touted the world over as the ***best thing to happen in the evolution of female sexuality since the introduction of the pill in 1959.***

It's about time isn't it?

What's all the fuss about?

Good question...its because **finally there's something made specifically for women that focuses on the most erotic part of her body. Her mind.**

Fact...If a woman doesn't get mentally excited - she'll never get physically excited.

It's just that simple.

As you already know, for women **Desire, Arousal, Anticipation, Excitement and Passion** happen mentally first.

So you can caress her, stroke her, and fondle her until the cows come home. You can try lotions, potions and concoctions. It won't matter. The gates to heaven will remain locked up - tight as a drum - if these mental needs are left unfulfilled.

Thankfully, somebody finally went out and found the key.

Now it gets really exciting!

Let me tell you about this magical key...

It's called Mental 4-Play for Women

Mental 4-Play is literally an "emotional breakthrough" for women.

It's the ONLY audio-sensual CD ever created that allows you to Extend your feelings, Expand your sensations, and exaggerate your sexual experience - during ALL 5 key moments of your sexual bliss!

How did it all happen? Let me explain in more detail...

Mental 4-Play didn't start out as a product.

As I mentioned in the beginning of this letter, I actually developed the prototype for myself. I went on my own private search to find an effective way to increase my sex drive and get myself in the mood quicker and easier.

My search resulted in this truly remarkable tool. And now women from California to Hong Kong use Mental 4-Play to help them restore great sex into THEIR lives. And so can you...

You see, this is a completely passive experience. (Meaning you do nothing – except just listen). Without any effort, drugs or potions - you're able to finally unlock these 5 keys that help you unleash your own sexual happiness.

Please pay extra close attention to what I am about to share with you, because this is the true POWER and MAGIC of Mental 4-Play.

Let's briefly go over each one...

1 KEY TO SEXUAL HAPPINESS

Delete Any Distracting Thoughts You Have

Women tend to be "mental-warriors". We are constantly judging, evaluating and contemplating. We analyze, theorize and criticize ourselves, places and events in our minds way too much. We relive past experiences and allow our thoughts of worry, shame and/or guilt to create mental barriers to orgasm. The second you let these thoughts invade, you lose! You lose the moment; you lose the pleasure! You lose the connection to your partner. And, you lose the most sensuous reward – a blissful, mind-blowing orgasm!

Mental 4-Play is a powerful tool that helps you easily drop these "demon distractions" – lightning fast.

As you listen to your **Mental 4-Play** CD - you're led through a gentle, thought-reduction experience that leaves your mind and emotions clear, open and ready to receive pleasure. You'll find yourself in a wildly erotic and expectant frame of mind. Your sensations become sharper, your awareness more lucid and your feelings more abundant (all without effort or pressure on your part). NOW you're ready to fully experience pleasure – now you can focus and enjoy the most exquisite sensations your body can produce. NOW you can reach NEW unimaginable heights of extreme sexual bliss.

2 KEY TO SEXUAL HAPPINESS

Allow Yourself to Fully Relax and Loosen up

Doctors are now saying that stress and tension are stored in different parts the body - the results of which can be linked to long-term damages. If you're tense, stressed or fatigued - it will affect your body's ability to respond to touch, taste and physical sensations. A lot of women resort to alcohol or drugs to help them to "unwind" or relax and let go-but now there is a safer, more natural, more effective way to accomplish this.

Mental 4-Play merges Eastern and Western practices to gently put you into a state of TOTAL SENSUAL BLISS AND RELAXATION!

Women can get so relaxed listening to Mental 4-Play that many times they drift off to sleep (don't worry - it still works regardless!). So don't be alarmed when you find yourself waking up at the end of your session - feeling relaxed, yet totally energized - your erogenous zones pulsating and throbbing - and your sexual desires rising like a sultry Jamaican Sunrise. You will soon be hungry for touch and tingling with delicious sensations. During this state of relaxation and inner calm, you soon feel that life is much easier, sex less complicated and orgasms more natural.

3 KEY TO SEXUAL HAPPINESS

Get fully aroused and completely in the "mood"

Sometimes just making the decision to "have" sex can be burdensome, especially if the "new-sex" excitement has worn off. Men heat up faster than a furnace – while women are more like those slow roaster cookers. So many women find it a constant source of frustration - when it seems like their man is less interested in HAVING intercourse and more interested in just FINISHING.

This brings up 2 good questions...

1. How much Foreplay is enough?
2. How much foreplay is too much?

"Mental 4-Play puts any woman in the "mood" in 27 minutes or less!"

Release your partner from the enslavement AND pressure to turn you on. **Mental 4-Play** puts YOU (the woman) in control. It's the **ultimate foreplay "shortcut"** (no, it doesn't eliminate the need for foreplay) - but it does shorten the gap considerably - helping women to heat up faster, and BURN hotter!

By the end of your 27-minute session, you may notice your breathing has become more rapid, that your skin is flushed, your nipples are swollen and hard, and that you're extremely sensitive to touch of all kinds. You may also feel fully sexually awakened, (possibly for the first time ever). You're charged, and filled with eager anticipation as a sexual white-hot fire spreads across your skin faster than an African bush fire.

No more need to wait on any special time or place; **Mental 4-Play** leaves you with one secret, simple technique that'll have you hot and ready to go in seconds (for this feature alone I love this product!)

4 KEY TO SEXUAL HAPPINESS

Experience Intense Orgasms More Easily and Naturally

Statistics say 80% of all women have "faked" orgasms at one time or another. We do this mostly to salvage our men's egos. But also because - for a lot of us - they just don't come that easily or happen that often (if ever at all). While it's true - having an orgasm should never be the "goal" of your sexual experience - it sure can be a delightful reward that causes you to want even more.

Mental 4-Play, makes it very easy for you to experience extraordinarily intense orgasms-over and over!

Whether you're a multi-orgasmic woman already, or you don't have a clue what a real honest-to-goodness orgasm feels like, **Mental 4-Play** helps your mind to prepare for orgasm and your body to relax into your orgasms. This CD hands you the "magic keys" to riding the orgasmic wave to **even more** dizzying heights. You'll be shown how to expand this moment longer than you've thought possible. You will also learn how to relax and breathe so that time stands still as you expand and prolong your deeper waves of sexual delight.

5 KEY TO SEXUAL HAPPINESS

Connect to Deep Feelings of Love, Bliss and Sexual Fulfillment

For women, making love is not just an act - it's a "physical expression" of love. For men, sex is just an act of the "physical statement" of love. There are few things that bring couples closer, faster than complete sexual intimacy. This type of intimacy breaks down walls, heals wounds and removes scars. It saves marriages, enhances relationships and enriches lives.

Mental 4-Play helps you surrender to deeper levels of connection while you re-experience the wonders of making love - all over again!

Imagine- you cry tears of joy and bliss as you connect more deeply with your lover.

Imagine- you are happier and experience more delight than a child on Christmas morning.
This is what happens when you have the ability to really open your mind, heart and emotions during lovemaking. Once you have no blocks, no distractions, no stress and no tension, suddenly you're able to "tap in" to a deeper source of emotional nourishment. You now have access to extreme feelings of bliss, well-being and love. And in an instant, all is right within your world.

SO, ask yourself-

Have you EVER come across a product (any product) that even "attempts" to address these areas of sexual need for women? Or that was created with this kind of insight, depth and understanding of female sexuality?

This audio-sensual CD is unlike anything that you've ever thought about, imagined, or even dreamed was possible.

Using breakthrough technology called "Sensual Imagery" while taking advantage of the pure power of Neuro-linguistic Programming (NLP) AND traditional hypnosis-you are guided through a **5-step, hypnosis-imagery process** which **increases your desire for sex, helps you feel instantly aroused**, and results in deeper, **more profound levels of sexual pleasure**.

Sound good? **Well read on.**

Today I'm about to make you an extraordinary "no-brainer" offer.

(Warning: This offer is for first-time users only). It will have you "test-driving" **Mental 4-Play** in no time at all!

But before you make a decision:

Take a few minutes to read for yourself what actual users of **Mental 4-Play** are saying:

Camille Alexander, a wife and mother of 2, living in Toronto, Canada, and one of the most sexually repressed women in North America (according to her - not me), had this to say about the **Mental 4-Play** for Women CD:

"Suzie, I can't believe it...and neither can my husband, Kevin. After 10 years of marriage, we had pretty much given up that I would ever be experiencing anything more than dread and boredom in the bedroom. I was taking care of my wifely duties almost every day and it was making me feel like a prostitute. I was getting more and more depressed. Now, after using your CD - I am enjoying sex for the first time in my life. I really am. This is fun. My husband is ecstatic! I will be sending everybody I can to your Website. I just can't thank you enough."

Camille Alexander, Toronto, Canada (read more testimonials like this)

Errolyn Smith, divorced mother of two from Miami shares her experience using **Mental 4-Play:**

"I had never achieved an orgasm in my life... I did for the first time after listening to Mental 4-Play. If it can work for me, it can work for anyone. Now, when I get married again, it will be a totally different experience."

And just in case you haven't heard enough already...so that you know Mental 4-Play really is a "must have"... Here are 7 more reasons why nothing in the world rivals this remarkable arousal CD!

1 REASON WHY NOTHING ELSE RIVALS MENTAL 4-PLAY

You are guided by one of the most transformational therapists in North America.

Like you, I demand the very best. So I hand picked Matthew Brownstein to lead the session on your Mental 4-Play CD. Why? Because he is - without a doubt - one of the most inspired, dynamic and cross-functional healers on our planet.

Not only is he an acclaimed therapist (with a 6-month waiting list), he's also a Buddhist monk who has studied over a decade of Zen meditation practices (including residency at a Zen Monastery).

His dedication to healing and personal transformation fills him with warmth, sincerity and compassion. His vast experience using healing techniques such as Gestalt therapy and Ericsonian hypnotherapy qualifies him and puts him in a league that few other therapists in the world can match.

It is unusual and rare to find someone who has the level and "standards of excellence" essential to deliver this type of process to the public. Matthew has the perfect pace and hypnotic tone that will *guide you gently into a world of sensual delights and heavenly bliss.* (Afterwards you'll be totally relaxed, tingling with excitement and feeling absolutely delicious!)

2 REASON WHY NOTHING ELSE RIVALS MENTAL 4-PLAY

Mental 4-Play uses visual imagery, sensual sounds, eastern relaxation techniques and western hypnosis to create a profoundly sensuous experience.

You'll love the proactive fun and tantalizing new experiences Mental 4-Play can create for you. Without effort, you soon remove distractions, calm your thoughts and feel more relaxed. As you go through a "naturally progressive" journey of sensuous visual imagery and auditory sensations, you will hear many auto-suggestions to help you move deeper into your own inner world of sex and sensuality. You are also able to reframe any negative associations to sex you may have planted in your mind from past traumas or bad experiences. You'll quickly become more focused and find yourself more present to what is happening today - leaving yesterday's scars by the roadside.

3 REASON WHY NOTHING ELSE RIVALS MENTAL 4-PLAY

Mental 4-Play is an exclusively for "couples only" product.

* The Ultimate Relationship Enhancer

Begin to create "breathtaking" intimacy as deeper levels of passion and sexual fulfillment bond you together tighter than an egg roll. Mental 4-Play helps you open up to more emotional connection, and helps you surrender to desires that overtake logic and defy control.

* An Exquisite Marriage Revitalizer

If you've been putting your sexual relationship on the back burner - and now need to return it to its former lust and passion, Mental 4-Play is one of the most powerful tools you can buy. This audio-sensual experience lifts and transports you on clouds of sensuality and waves of ecstasy. In no time you'll find that you are back to that "just-met" feverish state of excitement. The next morning - the glow will be there again - you'll talk, you'll giggle and even hold hands like old friends reunited.

* Every Couple's Passion Restorer

Let Mental 4-Play transform her...

A passionate woman appears irresistible, stirring and unforgettable. In the moment that her sensuality blooms, she becomes both the "lover" and the "beloved". She is transformed into a sexual goddess - a modern day Aphrodite - sensual, lush, ripe and intoxicating. She is confident, her anticipation is contagious - her sexual charisma spreads across the bed like a fragrant mist - to intoxicate her lover - and he is lost - bewildered - and wants to bask in her radiance - forever.

REASON WHY NOTHING ELSE RIVALS MENTAL 4-PLAY # 4

Your Mental 4-Play session was created and developed by a woman for all kinds of women-

Women who are Bored-in-Bed - It's amazing what the years can do to a relationship. Like a swarm of starving locusts-daily routines, boredom and monotony can devour the very fabric of your sex life. If you've ever thought about adding a little more heat into your bedroom, Mental 4-Play is what you need. Squeeze every drop of delicious sensation that your body, mind and soul can withstand, as you let go and get carried away by currents of richly flowing sensations.

Highly Stressed Women - It's impossible to juggle a million things and STILL find time to be sexy. You need permission to stop being efficient and hardworking for a while. So, how do you "shift" mental gears from high-powered female to sizzling sex kitten in only a few minutes? With Mental 4-Play of course! It's your secret shortcut to get you in the mood. (And also the number #1 selling mood-maker in the world!) Switch off the mundane world – and use Mental 4-Play to bypass distractions. Drop the daily grind, get aroused and ready to experience the best sex possible for you - all in less than 27 minutes!

Hard-to-Arouse-Women - Whether it's lack of desire, inability to climax, sexual pain, inhibitions... it almost always starts with an emotional memory that you may not realize you have. That's because most arousal difficulties usually stem from your thoughts-you literally decide to shut down to either punish yourself or your partner - sometimes for fear that you will be hurt either physically or emotionally. As you listen to your Mental 4-Play CD, you'll be able to let go, get hot, and even allow yourself to embrace quick orgasm, once, twice, (and sometimes more) - as many times as your body can stand.

Super Moms and Wonder-Women - Once you throw kids into the mix, life becomes really hectic. Two working people, two offices, two sets of in-laws, and two pets, after-school, before school, soccer practice, dental appointments – the list goes on and on-

Mental 4-Play will help you to stop running the world for a few moments and just become fully present, aware and responsive during love play. That way you'll be able to get in the mood fast, release your stress and enjoy powerful feelings of sexual satisfaction even longer.

Honeymoon Nights - Even though most couples today already engage in sex before marriage - the wedding day is one of the most stressful days for many couples. Mental 4-Play will help you soothe nerves and lower expectations that can lead to added wedding night pressure. It is suggested that you begin listening to Mental 4-Play at least 2 weeks before your wedding. Listen to the CD to help make your wedding night experience the most intense and memorable possible.

New Brides/New Relationships - With newness comes excitement, eagerness and anticipation. But it can also come with awkwardness and feelings of insecurity and low self-esteem. Those are all self-defeating judgments that can bring old wounds into your new relationship. Use your Mental 4-Play CD to unplug yourself from your past relationship baggage and remove your judgmental feelings. You'll move into a "present moment" experience of wonderful thoughts, exciting feelings and sexual expression.

Women Who are Expectant or New Mothers - Having a baby can be more like a biological war with your body as the battlefield. Raging hormones and feelings of fear, uncertainty and insecurity all block your ability to feel, release and allow pleasure. You can use your Mental 4-Play CD to feel your beauty burning brighter and stronger - to temporarily move past your negative feelings and become wonderfully magnetic, irresistible and sensual, all over again.

Seniors - Mature Women - Age is more a belief than a reality. Here, the cliché is true. "You're only as old as you feel." Use your Mental 4-Play CD to help you feel beautiful, sexy and youthful. Mental 4-Play will help you reawaken your feelings of sexiness, heighten your awareness of your most sensitive areas of arousal and help you to become fully lubricated before intercourse.

5 REASON WHY NOTHING ELSE RIVALS MENTAL 4-PLAY

Mental 4-Play works quickly and safely with NO side effects.

In less than 27 minutes, you'll begin to feel the impacts of Mental 4-Play. In fact, many women feel aroused as quickly as in 5 minutes! Here are some comments from first time users:

"I felt warm and loving all over."
"It was truly magical.
"My breasts were so responsive and tingling."
"I was ready for sex, immediately!"
"I fell asleep and woke up towards the end of the session. I was shocked to find out how ALIVE my body felt."

Mental 4-Play is a totally passive experience (meaning you do nothing - except listen).

The more you listen to the CD, the more profound the changes will become. I recommend that you listen to your Mental 4-Play CD at least 9 separate times to firmly anchor your new experiences. (To get the maximum benefit-you should ideally listen once each day - 5 times per week for a minimum of 8 weeks.) Then a couple of times a month to keep your newly conditioned mindset active and alive.

FAQ frequently asked questions

What is Mental 4-Play?

Mental4-play is a revolutionary audio CD, unlike anything that you have ever experienced.

For 27 minutes you find yourself floating on a wave of delicious sensations, created through the innovative combination of sensual imagery and traditional hypnotherapy.

Mental 4-Play takes you gently by the hand from start to finish. It guides you easily through five natural stages of profound sexual Intimacy. These stages were discovered by Eastern mystics. Stages you’ll recognize as arousal, stimulation, sensation, intercourse and afterglow.

As a result of listening to Mental 4-Play, you can expect to become more aroused. Your desire to make love or engage in love play will increase dramatically. And as you continue to listen more and more, you’ll begin to find that ALL your sexual experiences will be more profound.

Q: How Does Mental 4-play Work?

Answer: That’s a Good Question. While some of our techniques remain trade secrets, here are the basic parameters: As you listen to the CD you are guided in to a deep hypno-meditative state of relaxation. Your guide Mathew will take you through a five step “naturally progressive” journey of visual imagery, auditory sensations, and auto-suggestions. These lead you deeper into your inner sensuality. Mental 4-Play helps you reframe any negative associations. You get focused and become more present. It helps you awaken your feelings of attraction and excitement and transfer them to your lover. It also helps you learn your way around pleasure points on your body that you might otherwise overlook. And finally, it shows you an eastern breathing technique that helps you prolong your moment of orgasm.

The Mental 4-Play CD is digitally mastered and encoded with all the latest auditory technologies to help you facilitate a powerful yet relaxed state of welling being. Because it is a passive experience (meaning you do nothing - except to just listen) The more you listen to the CD the more profound the changes will become. I recommend for you to listen to your Mental 4-Play CD at least 9 separate times to firmly anchor your new experiences. (to get the maximum benefit you should ideally listen 5 times per week for a minimum of 8 weeks. Then a couple of times a month to keep your newly conditioned mindset.)

Q: Will Mental 4-Play work for every woman?

Answer: Obviously nothing will work EVERY woman; we are as unique as sands of the Mojave dessert. However all of us are ruled by the same universal longings and desires, and this is what Mental 4-play helps you to magnify. Mental 4-play will amplify and magnify your desire to be sexy and sensual. For you to be “the lover” and as well as “the beloved” - For you to squeeze every drop of delicious sensation that your body can tolerate. For you to go timeless and relax, let go, and lubricate fully during penetration. For you to allow, embrace orgasm, once, twice, and as many as more times as you can stand. For you to be fully present, aware and responsive during the moment of eruption so that you can prolong these powerful feelings evener longer, and finally to be soothed as you let nourishing petals of bliss wash over you during after glow - and as a result: your sex, love-play and intimacy becomes a deeper more fulfilling experience for you. One that you don’t mind repeating over and over again. But the bottom line is this. Try Mental 4-Play and if you find it doesn’t work for you - I am more than happy to send you a completer refund.

Q: What should I expect the first time that I listen?

Answer: I've had reports of many different kinds of results from women when they first got their Mental 4-Play CD. They range from Excited, Nervous, to Eager and skeptical. Listening to your Mental 4-Play CD can be also be very exciting. As can be any other "first-time" experiences. You can make your experience more rewarding for yourself by simply letting go of any ideas of what it "should be" or "will be" like. Allow the experience to speak for it self. (also remember, any feeling you have is appropriate)

Q: Can I expect INSTANT results from Mental4-Play?

Answer: That depends on you! Mental 4-Play is a passive, non-invasive, solution. So the degree of results you get is largely depended on you. The more you listen - the more impact the session will have. Many times the results may not be evident until during actual love making. Do not get frustrated or give up. Give yourself at least 2 or 3 sessions with Mental 4-Play before even beginning to make any judgments. Give yourself time to adjust.

Q: What if Mental 4-play does not work for me?

Answer: Mental 4-Play is not for every one. A small percentage of women will not respond to Mental 4-Play. Individual problems like sexual dysfunctions, psychological imbalances, depression or other physical and mental impediments can cause a woman to have decreased sexual responses. In these cases an over-the-counter product like Mental 4-Play cannot be considered a medical treatment. However, as I have already mentioned…if you try Mental 4-Play, and you feel you have given it a fair shot - then simply return the product for a full/prompt NO QUESTIONS asked refund.

Q: How do men benefit from Mental 4-Play?

Answer: Want to know what men want? They want YOU. Uninhibited, wide-eyed, wide-open - YOU. Reveling, flaunting and taunting them with all your feminine glory.

His fantasy? YOU - the sexy YOU. The sensuous YOU. The hot and eager YOU. Excited, wanting yearning for his touch… YOU eager to please and be pleased.

Surprised? A National survey revealed that 85% of men in long-term relationships are not fantasying about "other" women - they fantasy about the woman they love - just in a more "sexy" or revved-up version of you.

Mental 4-Play helps you to embrace, welcome and reward your sexuality, sensuality, and femininity, You begin to respond with anticipation and welcome spontaneity. As a result…you both kick-down any previous barriers to sexual intensity and adventure.

Its like hanging a "welcome-home" at the door for him to see.

Q: My Guy bought me a copy mental 4-play should I be offended?

Answer: Throw your head back and shout with joy! This is the ULTIMATE gift for YOU it is only focused on you, YOUR desires, YOUR longings, and YOUR pleasure - NOT his. My husband was ecstatic. He usually had to work on me for hours before "making" me orgasm. The pressure was off him, and I achieved orgasm easily and quickly.

Husbands, your wives will be truly grateful to you. If you give her this CD for her birthday, you will be grateful too, since it frees men from slavery to the female orgasm.

I am tired of products that are all about genitals, anatomy, positions, and techniques. Mental 4-Play hits the "spot" because it is all about getting you in the mood to have sex. And that's all that counts. I can take care of the rest naturally!
